Gamelan Son of Lion is a New York based ensemble specializing in  
new music written by Americans for Javanese instruments. The set of  
instruments was built by Barbara Benary in the style of those found in  
Indonesian villages. Two scales are used: pelog (brown and red)  
and slendro (red and white). Son of Lion may be heard on the new  
Folkways record, "Gamelan in the New World" FTS 31313

This concert is made possible by funding from Meet the Composer.  
Accordingly, we invite you to stay after the program, at which  
time the composers will be available to discuss their work.
